

iC-Haus China 在大湾区成立

随着中国代表处 "iC-Haus China" 在深圳的开设, 作为技术支持中心, iC-Haus 与中国的重要合作伙伴和客户更加接近了。新办公室位于深圳市罗湖区深南东路 4003 号世界金融中心, 由 iC-Haus FAE Eduardo Cheng (程毅) 管理。程毅是一位能说流利中文的首席电子工程师, 在我们的集成电路 (iC) 的设计和应用方面拥有丰富的经验, 并且已通过拜访客户和展览会被大家熟知。iC-Haus China (www.ichauschina.com) 很快将引进 iC-Haus 德国的本地工程师和专家, 以协助我们的 iCs 在客户应用中的设计, 特别是自动化、机器人和光学领域。iC-Haus 的产品 (www.ichaus.com) 在驱动器和汽车领域中的智能传感器和激光驱动器处于领先地位。由 iC-Haus 创立的开源 BiSS 接口已成为免费的全球标准, 已发出多达 600 个使用许可。iC-Haus China 将通过亲自拜访客户、与工程师的视频会议以及展览会来支持客户及其在中国的成熟销售渠道。

iC-Haus China in Greater Bay Area

iC-Haus is coming closer to its valued partners and customers in China with the opening of the representative office "iC-Haus China" as support center in Shenzhen. This new office is located at the World Finance Center, 4003 Shennan East Road, Luohu District, Shenzhen and managed by iC-Haus FAE Eduardo Cheng. Eduardo is a fluent speaking principal electronics engineer with skilled experience in design and application of our Integrated Circuits (iCs) and already well known from personal visits and trade shows. iC-Haus China (www.ichauschina.com) will soon be expanded by local engineers and experts from iC-Haus Germany in order to assist the design-in of our iCs in customer applications, especially for automation, robotics, and optics. iC-Haus products (www.ichaus.com) hold leading positions in terms of smart sensors in drives and laser drivers also in automotive. The open source BiSS Interface founded by iC-Haus has become a free of charge standard with up to 600 worldwide licensees. iC-Haus China will support customers and its established sales channels in China by personal visits, video meetings with the engineers, and at the trade shows.
